

Post-Observation Reflection

1. Did you need to make any modifications to the planned lesson? What caused the changes?
2. If no changes were made, to what extent did students achieve the stated goals of the lesson?
3. In your judgment, what instructional activities (or materials) were effective? Ineffective? Explain.
4. Are there any communication problems or other issues involving parents, teachers, or building administrators that you would like me to know about?
5. Are there any professional development activities you are currently involved with that you would like me to know about?
